Yes, We Have Saturday Appointments!

Saturdays tend to be our busiest day because so many patients find it more convenient than a week day time.

Please understand that since the demand for this day is so great, last minute cancellations and failed appointments will result in our being unable to reschedule any future Saturday appointments for you.

If you really need a Saturday time please be certain to keep your scheduled appointment, or give us a forty eight hour notice if you need to change your appointment. This will allow someone else needing a Saturday the opportunity to come in sooner.

I understand that Saturday appointments are important to keep as scheduled, and that I will be charged a broken appointment fee if I fail to show up for time I have reserved without giving a forty eight hour notice. I understand that there will be no broken appointment fee if I give at least a forty eight hour notice if I need to reschedule.
